

How to align mappings in two columns?

Zhihao Wang

June 14, 2019

How to align these two columns and the mapping inside each column?

units \rightarrow age(x days old)	inbound date \rightarrow units
10 \rightarrow 10	2019-06-21 \rightarrow 10
30 \rightarrow 15	2019-06-16 \rightarrow 30
60 \rightarrow 90	2019-04-02 \rightarrow 60

Here is one unsuccessful experiment.

	inbound date \rightarrow <i>units</i>
<i>units</i> \rightarrow age in days	2019-06-21 \rightarrow 10
10 \rightarrow 10	2019-06-16 \rightarrow 30
30 \rightarrow 15	2019-04-02 \rightarrow 60
60 \rightarrow 90	

Here is another unsuccessful experiment.

<i>units</i> \rightarrow	age(x days old)	inbound date	\rightarrow <i>units</i>
10 \rightarrow	10	2019-06-21	\rightarrow 10
30 \rightarrow	15	2019-06-16	\rightarrow 30
60 \rightarrow	90	2019-04-02	\rightarrow 60
